

NO TIME Tempranillo 2007

Winery: No Time

Region: Navarra D.O.

Grapes: 100% Tempranillo

Winery: The beginning of the winery was started in 1910 after phylloxera was eradicated from the region. The modern winery was founded in 1999 and has plantings of 80-year-old, head-trained Garnacha, Tempranillo and lesser amounts of Merlot, Cabernet Sauvignon, Viura and Moscatel. The vineyards are located 40 kilometers south of Pamplona in Northern Spain.

With the relatively recent influx of International grapes to Spain, we worked with the winery to focus on traditional varieties, namely Garnacha for red and rose, Tempranillo and Viura. We searched for lots which show an honest, clear modern style with clean fruit flavors and a sense of place.

Wine: This wine is made from 100% Tempranillo, which is well adapted to the region and started to be planted in the 1980s. Fermentation occurs in temperature controlled stainless steel tanks at temperature no higher than 80 degrees F. Skin maceration is limited to time during fermentation to yield a generously textured wine. Aged for 3 months in stainless steel tank prior to bottling to allow some tannin to soften.

“A nice Tempranillo for the price. Medium dark ruby showing notes of dark cherry and spice on the nose and a soft, perfumed palate of dark cherry, too. Would be rated higher except for a middling mid-palate.”
